PROPERTY INFORMATION:

Raquet Club is one of the oldest and largest subdivisions in the area and spectacular lake views are common as they are from this property.

A spacious 2 bedroom home with a full 1 bedroom casita below. A bonus for the homeowners here is thermal water piped directly into each home. A huge covered terraza has not only a full length infinity pool alongside but plenty of seating and gas fireplace to set the mood for a relaxing sunset. Large kitchen with modern appliances and huge wood built in cabinet with glass upper doors in the formal dining area is quite the conversation piece. Much more to describe....but instead make this your last and final stop when viewing homes!
